

IRAC SRL

## RELEVANT INNOVATIONS FOR WASHING

For more than a quarter of a century, IRAC S.r.l. has designed and realized, for the flexo and gravure sector, innovative solutions solving the problems associated with washing and regenerating solvents and water.

A know-how acquired in tight cooperation with its many customers, in depth analysis of their needs, a tight-knit and motivated work team, enabled IRAC to manufacture new washing systems, **ROLLCLEAN MINI** and **SR-MINI LAVACLICHES** plates washer, able to satisfy the requirements also of small and medium Companies.

**ROLLCLEAN MINI** is able to wash Anilox, rubber rollers, ink trays, sleeves, mounted plates, etc.

**SR-MINI LAVACLICHES** plates washer is specifically studied to clean plates dismounted.

The greatest asset of those new automatic washing units is the operating and economical cost of conduct. Moreover, thanks to their compact design, can be installed in small areas.

“Customer satisfaction is IRAC aim which, when satisfied, is the best advertisement”.
